pretty well. The body's, I think, put in a real long day on a real tough subject. And I think we've gone a long way, and I appreciate your patience and willingness to struggle through what are technical issues. I understand there may be a motion coming soon. I just want to thank the body. I don't know when the issue comes back up, but it will be one, I hope, I can begin to fashion. I think if you take today's discussion, look at the task force report of what the committee did if you want some background, use my staff if you want to, to try to look at some of these issues. But I think it's a good place to stop today. Let the body absorb what we've done and come back and have at it another day. I appreciate people who have brought me amendments. Do I like them? No, but then that's just being candid, but they make the process work. To that extent, it's time well spent. And so, with that, thank you for the afternoon...the morning and the afternoon. And I hope that we can come back to the issue of universal service in the near future. Thank you, Madam President.

PRESIDENT ROBAK: Thank you, Senator Kristensen. Mr. Clerk.

CLERK: Madam President, I do have a priority motion. If I may, some items for the record.
